PIERCE AND HARLEY-DAVIDSON NFFF FULL THROTTLE SUPPORT CAMPAIGN APPROACHES \$250,000 MILESTONE

Custom Harley-Davidson Motorcycle Awarded to Volunteer Firefighter

APPLETON, Wis. (April 22, 2010) — National Fallen Fighters Foundation (“NFFF”), with the support of Pierce Manufacturing Inc., an Oshkosh Corporation [NYSE: OSK] company, and Harley-Davidson Motor Company [NYSE: HOG] today announced that their NFFF Full Throttle Support campaign to assist the nonprofit National Fallen Firefighters Foundation has generated donations approaching \$250,000. In addition, NFFF together with Pierce and Harley-Davidson named the winner of the NFFF Full Throttle Support II sweepstakes. Representatives from both companies presented the keys of a custom, one-of-a-kind Harley-Davidson® Fat Boy® Firefighter Special Edition motorcycle to Captain James Anema of the North Whidbey Fire and Rescue Department located on North Whidbey Island, Wash. The presentation took place at the Fire Department Instructors Conference (FDIC) in Indianapolis, Ind.

The sweepstakes winner is a six-year volunteer with the North Whidbey Fire and Rescue Department. “I supported the NFFF Full Throttle Support campaign both last year and this year, and I can’t imagine a finer cause for firefighters,” said Captain Anema. “Because many in the NFFF have been through a tragic loss, they understand better than the rest of us what is needed to help the survivors. Being selected is a responsibility that I will not take lightly. I am already networking with firefighters on regional events where this beautiful motorcycle can be used to help tell the NFFF story.”

“With the completion of its second year, the NFFF Full Throttle Support initiative continues to show its strong appeal and we are proud that, together with firefighters, dealers and citizens throughout the country, we have been able to raise nearly a quarter of a million dollars for this truly worthwhile endeavor,” said Wilson Jones, Oshkosh Corporation executive vice president and president, Fire & Emergency. “The money donated as a part of this campaign supports the noble mission of NFFF to honor the memory of firefighters who have lost their lives by assisting their families.”

Since its inception, NFFF Full Throttle Support has generated 16,163 individual donations to the NFFF. The NFFF is a 501(c)(3) nonprofit organization dedicated to honoring the memory of America’s fallen firefighters as it allocates resources to aid their surviving spouses and children with scholarship assistance for educational and job training costs, and for peer networks that offer families and coworkers essential emotional support.

As the father of a fallen firefighter and one who has seen first hand the support of NFFF, James Daughetee commented, "Our son, Shane M. Daughetee, was honored in 2008. The candlelight service and the memorial service were beyond what we could ever imagine. The National Fallen Firefighters Foundation has helped us in so many ways that only survivors could ever know. Our heart and thanks go to Pierce Manufacturing and Harley Davidson for their generous and continuing support to the Foundation. They are helping to ensure that the Foundation can continue to honor our fallen heroes and provide endless support to their survivors."

"On behalf of Harley-Davidson Motor Company, and its dealers and riders, we're proud and honored to have played a role with Pierce to endorse and sponsor NFFF Full Throttle Support. Harley-Davidson is proud to be a sponsor of this important cause," said Bill Davidson, Harley-Davidson Motor Company vice president of Core Customer Marketing.

"The NFFF is so appreciative of the support given to us by both Pierce and Harley-Davidson. Without their commitment to the families of the fallen, our programs and services would not be as effective as they have been," said Ron Siarnicki, NFFF Executive Director. "NFFF Full Throttle Support has been one of our premiere fundraising efforts and it's exciting to see this one-of-a-kind motorcycle awarded to a very special individual."

Forward-Looking Statements

This press release contains statements that the Company believes to be “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. All statements other than statements of historical fact, including, without limitation, statements regarding the Company’s future financial position, business strategy, targets, projected sales, costs, earnings, capital expenditures, debt levels and cash flows, and plans and objectives of management for future operations, are forward-looking statements. When used in this press release, words such as “may,” “will,” “expect,” “intend,” “estimate,” “anticipate,” “believe,” “should,” “project” or “plan” or the negative thereof or variations thereon or similar terminology are generally intended to identify forward-looking statements. These forward-looking statements are not guarantees of future performance and are subject to risks, uncertainties, assumptions and other factors, some of which are beyond the Company’s control, which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These factors include risks related to sustaining the required rate of production for the M-ATV contract and the amount, if any, of additional orders for M-ATVs that the Company may receive; the cyclical nature of the Company’s access equipment, commercial and fire & emergency markets, especially during a global recession and tight credit markets; the duration of the global recession, which could lead to additional impairment charges related to many of the Company’s intangible assets; the expected level and timing of U.S. Department of Defense procurement of products and services and funding thereof, risks related to reductions in government expenditures, the potential for the government to competitively bid the Company’s Army and Marine contracts and the uncertainty of government contracts generally; the consequences of financial leverage associated with the JLG acquisition, which could limit the Company’s ability to pursue various opportunities; risks related to the collectability of receivables during a recession, particularly for those businesses with exposure to construction markets; risks related to production delays as a result of the economy’s impact on the Company’s suppliers; the potential for commodity costs to rise sharply, including in a future economic recovery; risks associated with international operations and sales, including foreign currency fluctuations; and the potential for increased costs relating to compliance with changes in laws and regulations. Additional information concerning these and other factors is contained in the Company’s filings with the Securities and Exchange Commission. All forward-looking statements speak only as of the date of this press release. The Company assumes no obligation, and disclaims any obligation, to update information contained in this press release. Investors should be aware that the Company may not update such information until the Company’s next quarterly earnings conference call, if at all.
